

## TOPAKUSTIK® Type ,R' - Productdatasheet

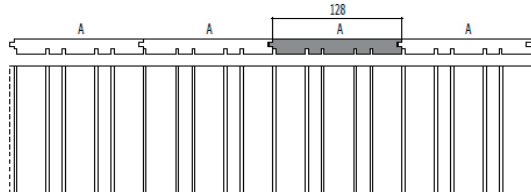

TOPAKUSTIK® Type ,R' - NEW and fresh design

Type R has an irregular grooving pattern that repeats itself systemically every 128 mm. Two (Type Duo) or even three (Type Trio) differently grooved planks increases the irregularity, espacially when its assembly happens randomly.

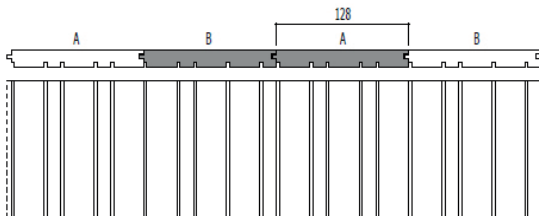

On the panels the grooving repeats itself only every 592 mm, which will not be noticed.
